Summary

Information technology student graduate with experience in web development transitioning to Manual QA, bringing a strong understanding of software development and testing principles. Experienced in troubleshooting, problem-solving, and ensuring the quality of applications. Eager to apply a detail-oriented approach to identify defects, improve processes, and contribute to delivering high-quality software products. A fast learner with a commitment to continuous improvement and adaptability in dynamic environments.

Experience

In1go Technologies Inc. — September 2023 – Present
Junior Web Developer - Full-Time   Las Piñas, 1751 Metro Manila

- Collaborated with cross-functional teams to develop and test web applications built on microservices architecture, ensuring high performance and seamless integration.
- Enhanced database performance by optimizing queries and resolving issues, leveraging ORM techniques and code refactoring to improve efficiency and data handling.
- Created and validated intuitive, user-friendly interfaces using React JS, with a focus on accessibility and smooth navigation, contributing to overall user experience testing.
- Tested and validated API endpoints, ensuring reliable data processing and integration for web applications through thorough manual and exploratory testing methods.
- Identified and resolved data inconsistencies during migration processes, ensuring smooth transitions and accurate data transfer, focusing on both data integrity and functionality from a testing perspective.

Phosclay Chemical Manufacturing — March 2023 – June 2023
Graphic Designer - Internship   San Dionisio, Dasmariñas, Cavite

- Assisted in the design and creation of graphics for social media posts, website assets, and other digital marketing materials, ensuring visually appealing and brand-consistent content across platforms.
- Conducted research and curated design resources, such as images, fonts, icons, and other visual elements, to support ongoing and upcoming projects, ensuring a diverse and high-quality selection of assets.
- Managed and maintained digital asset libraries, organizing files efficiently to facilitate easy access and retrieval for future design and marketing initiatives.
- Collaborated on brainstorming sessions and contributed to creative concepts, offering constructive feedback and suggestions to enhance design quality and alignment with project goals.
- Supported administrative tasks, including tracking project timelines, maintaining schedules, and assisting with coordination between teams to ensure smooth workflow and timely project delivery.

Education

Cavite State University – Bacoor Campus — August 2019 – September 2023
Molino VI, Bacoor City, Cavite   Bachelor of Secondary in Information Technology

---

Skills

Web Development
HTML 5, CSS, JavaScript, React JS, Node JS, SQL, Tailwind CSS, Bootstrap, Postman

Manual Testing
Detail-Oriented, Functional Testing, UI Testing, Software Testing, API Testing
